the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over by 1.2 million (Office for National Statistics 1999). The number of people aged 85 and over is projected to increase by 1.5 million by the year 2020 (Office for National Statistics 1999).

There is a growing awareness of the need to address the health care needs of the elderly population. The Department of Health (1999) has identified the need to improve the health care of the elderly as a priority for the NHS. The Department of Health (1999) has also identified the need to improve the health care of the elderly as a priority for the NHS. The Department of Health (1999) has also identified the need to improve the health care of the elderly as a priority for the NHS.

The Department of Health (1999) has identified the need to improve the health care of the elderly as a priority for the NHS. The Department of Health (1999) has also identified the need to improve the health care of the elderly as a priority for the NHS. The Department of Health (1999) has also identified the need to improve the health care of the elderly as a priority for the NHS.
